Value Add to project apart from using AI:

- Selected the final project concept after disccussing with the professor
- Conducted real user requirement gathering, including survey creation, distribution, and data collection.
- Analyzed survey results based on the actual user needs and extracted trends my self
- Designed UI screens in Figma using my own creativiy and iterative improvements.
- Re-wrote and formatted all the contents to ensure it is original and well aligned with the requirements
- Ensured that my report reflects authentic insights, not just AI suggestions.
